

Found Sounds Around Tiny Town ... The Swamps

Written by Administrator

Monday, 13 July 2015 15:42 - Last Updated Monday, 13 July 2015 15:52

Our Ornithological Irishman-correspondent, Mick, first introduced our team to this area in 2012. We went back. It is still there. We heard lots of sounds. The team reports that the croakers were louder last week (July 4, 2015) than this, possibly in celebration of the holiday.

We thank Mick "Birdman" Lumb for showing us this lovely habitat about which we know so little ... We choose to not disclose this location lest it become another "10 Top Reasons for Living Near Festiville, NY."
